CONFIDENTIAL RECORD REPORT

Alright. Alright. The "Confidential Record Report" starts with our next issue. Small notice inserted here a few issues ago asking whether music men wanted us to write a record report brought such wide and instantaneous response to go ahead with a new, different, better, confidential and absolutely unbiased record report that beginning with our next issue you will see the first edition of what we prefer to call the "Confidential Record Report" — It's different. Even the symbols used to designate the degree of popularity for records will instantly be recognizable. We're not interested in the "Hit Parade". We're not interested in how many times a song has been played over the air. We are solely interested in HOW MANY NICKELS records can bring into your phonos. We're having it written by an expert. A man well known to Tin Pan Alley. A man right in the business. Who knows music and has lived with it for a great many years. He's going to give you the lowdown - the inside dope. The true, factual report that will help make more nickels pop into your music equipment. He is Irv Gwirtz. We believe you'll like his stuff. Therefore be on the lookout for next week's first edition of "Confidential Record Report".

U.S. TAX COLLECTIONS

The I.R.D. (Internal Revenue Dept.) is reported to be working out an elaborate system to insure collection of coin machine taxes. One well known former coin machines' attorney has been approached to help plan on these collections. Use of affidavits (as first reported used in Milwaukee) may become national. In short, where ops take out $10. licenses their locations may be checked by I.R.D. and location owners asked to sign affidavits that they are not paying off on Free Plays. Otherwise tax will be boosted to $100. (In case of $100. problem is whether city will countenance this reference to machine being a "gambling device".) Still, with such men on staff, as this former coin machines attorney, much good may result. He realizes that counter games should be taxed but $10. per annum. He will work to get this recognized. U.S. can benefit from thousands of counter games now gathering dust instead of revenue. At the same time it will not be easy to pull the wool over the eyes of this sort of man for he is intimately acquainted with operating methods.

U.S. LIST PUBLICATION

Tho a feeble attempt was made during license hearings in Washington to prevent open publication of U.S. license locations - this failed. The reaction is expected to make itself felt. Open publication of those $100. spots is already worrying many coinmen. These locations are supposed, according to the ruling, to contain "gambling devices". The big problem will arise when crusading newspapers decide to openly publish lists of these locations. The angle is then, "How important can coingames be made to locations, to get locations to disregard such publication and also to help back up coinmen in all eventualities? The big job is to SELL the importance of coin machines to locations all over again. Just as pin game idea was sold to locations back in '30, '31 and '32.

PRICE UPSWING

Tho prices seemed to have at last reached a peak, they will continue upwards as the colder weather really sets in. By Spring '43 prices will have established a new high. But, there will probably be a short lull where prices will fluctuate both up and down for a while before getting under way again. Equipment exchange will become more important than ever. Need for machines in many territories will result in prices zooming as Spring approaches.

INGENUITY

This past week a noted distrib walked into our offices and showed us a few new creations. One was a new cartridge chamber for the average phono tone arm. Another was a new legal type of game. He also explained a few other ideas that he and his men were working on at this time. In short, ingenuity hasn't yet left the coin machines industry, thank goodness.

I.E.C.

Chicago continues to lead and the 3rd week in January is still preferred for the Indoors Entertainment Conference. How many people in your territory will go?

"THE COIN MACHINE MERRY-GO-ROUND"

FIRST FROST BITES ARCADES

The first frosts of Fall bit into Arcade play rather hard along the eastern seaboard from all reports. The belief is that this is only a temporary condition and that it will right itself once the public gets accustomed to the colder weather. This first Fall frosty play has always been the case where Arcades are concerned. Even the larger Broadway spots have reported a drop in take with only the big weekends saving them from loss.

COINMEN DOING WAR WORK

It is interesting to note, tho not too well known, that there are many small coin-firms (who have lathes, drills, etc.) engaged in war work. Some of these firms claim that they "just sort of growed into it". While making parts for coinmen in their own shop someone in the plave got the idea that they could do as well on some of the smaller work for the larger factories. Tho they are still keeping their hand in coin machines they are begining to feel their oats and look forward to eventually going into some division of the manufacturing field.

44 OUT OF 48

44 of the 48 state legislatures will meet in '43. They will be burdened down with a great many problems occasioned by the war. They will also be in a quandary regarding the many political changes that have taken place. But, their greatest problem will be raising revenue for their states. The average legislator is going to feel pretty anxious about his state when he sees the figures on how much loss his state is starting to undergo. Gas rationing is not only terrifically cutting down on the states' revenue, but, with so many smaller business folding and with roadside spots, etc. out of the picture, the legislators are going to turn desperately to any direction to raise revenue.

RURAL ROAD TRAFFIC DROPS 40%

A drop of more than 40% is expected in rural road traffic this month. This is due to national gas rationing. This drop has already been in effect in the east where gas rationing was born. Naturally this will greatly effect all road spots and resorts and will therefore bring much more equipment to the field from such spots. This equipment is needed. If you are pulling in machines where gas rationing is going to hurt business - then let the rest of the trade know about it. That is, of course, if you're not going to use this equipment yourself in town. The Public Roads Administration of the Federal Works Agency also reported that October collections of motor fuel taxes were down 32% in the already rationed areas.

WANT NICKELS AND PENNIES

The Federal Reserve Bank of New York has sent out a call to all banks in the 2nd Federal Res. District to ship in all pennies and nickels not absolutely essential to their needs right away. The purpose of the request is to make present supplies of small currency go as far as possible and ease the strain on the mint. The Treasury Department has stated that a better distribution of 1¢ & 5¢ pieces will save metals vital to the war effort by lessening the demand for new coins.

CRATES & CARTONS

Who would ever have "thunk" it? That crates and cartons would be an important topic for discussion among coinmen? Remember how you used to throw them out and beg the kids to take 'em away. Well, this has stopped. And, here's an inside tip - get all of these you can, flatten 'em out, store 'em away, save 'em - they're going to be mighty scarce.

BUFFALO DELINQUENCY REPORT

A great many may have passed up a very dry report that appeared in quite a few AP newspapers thruout the country. It is all about a Buffalo probation officer's report on juvenile delinquency. He claims that high wages are injurious to youth. He also reports these a source of much marital troubles. As you probably know juvenile delinquency is spreading far and fast over the nation. But, buried away in this report, there was this one item, "Fathers are holding out more money from the 'missus' to spend on gambling and liquor". Mark that. Also be sure that everyone of your machines bears the placard, "NO MINORS ALLOWED". And, to be further safe, be sure that your locations do not allow too big losers, especially if you have slots and consoles working in workingmen's spots. These delinquency reports are getting politicos all het up. Don't give them a chance to go to work on you.

Bill Gersh,
The Cash Box,
381 Fourth Ave.,
New York, N. Y.,

Dear Bill:

Just a few lines to let you know how much Dad and I appreciate your paper, "The Cash Box". Last week, due to our ad in your paper, we sold more merchandise than we had sold in the previous six months.

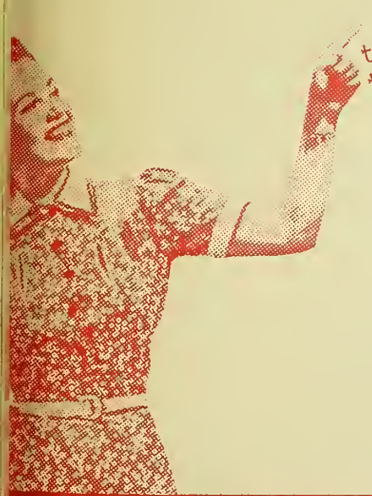
We feel that the larger ads more than pay for themselves thru the new business we have received. Then, too, the new clientele we have acquired, means repeat orders for us.

Your first two pages sure help to keep us up to the minute on anything regarding the coin machines industry.

THANKS a million for getting us to subscribe to your paper.

Sincerely,
Bill Bigner

P. S. (If our large ad is too late will you try and put our wanted ad in this week.)



TIME'S A'WASTIN'! RUSH YOUR AD TODAY.. RIGHT NOW.. BY AIRMAIL! CASH IN BIG BY USING A FULL PAGE AT ONLY $37.50—YOU'LL BE GLAD YOU DID!
